The therapists were very personable, easy to talk to, creative. They listened to how I wanted to try to do things. The home visit was very helpful.

I enjoyed my staff and felt I received wonderful care from everyone. Thank you so much for my care. I felt well taken care of.

I thought the nursing staff was exceptional. They were friendly and caring.

You were all very awesome, with my care and the care you were observed giving to the other clients. From my perspective, the saying, “if it’s not broke, don’t fix it,” applies here. Thanks to you all.

Just keep doing what you do! It’s perfection! Great Job!

I am well satisfied with the nursing staff, and don’t see any need for improvements.

The therapy staff was excellent, not only in implementation of exercises, but in motivation and friendliness.

Dr. Rozek is an excellent listener and we felt she is very interested in her patients.

Dr. Nora was a particular doctor to me while I was here. He kept everything real.

The rehab unit is above a 5, handling a difficult situation well.

This Covenant team has worked miracles to help this stroke patient get back to her life. Our heart-felt thanks to everyone who was there for her. Thank you Dr. Rozek!
